Daniel Raphael

About me:

Versatile software engineer with experience in Full-Stack development. Focused on building efficient and scalable applications.
Methodical, curious, and striving for knowledge and success with great ambition

Professional Experience:

Fullstack Developer | Ronit Raphael | 2024 – Today

- Architected and launched a WhatsApp marketing platform with advanced automation features and real time chat UI, built using ExpressJS and react
- Engineered an OpenAI-powered chatbot with complex backend logic, and developed a real-time analytics dashboard to optimize user engagement
- Developed data analysis scripts for sales, marketing, and accounting teams

IT Administrator | Ronit Raphael | 2021 –2023

- End-user software and hardware troubleshooting
- Connecting and configuring computerized medical equipment to the local network and management systems.
- Managing permissions and access to in-house medical CRM/ERP systems.
